

## LITERATUUR

1. Atkinson, H. F. : An investigation into the permeability of the human enamel using osmotic methods, Brit. D. J. 83: 205, 1947. (1A—2A—2BII—3A).
2. Atkinson, H. F., Matthews, E. : An investigation into the permeability of human deciduous enamel, Brit. D. J. 86: 142, 1949. (1A—2A—2BII—3A).
3. Barnum, C., Armstrong, W. D. : In vitro and in vivo exchange of phosphorus by enamel and dentin, J. D. Res. 20: 232, 1941. (I.A.D.R. 19th Gen. Meet.). (1A—2BI—3B).
4. Bartelstone, H. J., Mandel, I. D., Oshry, E., Seidlin, S. M. : Use of radioactive iodine as a tracer in the study of the physiology of the teeth, Science 160: 132, 1947. (1A—2BI—3B).
5. Berggren, H. : Penetration of dyes in living human enamel, J. D. Res. 22: 1, 1943. (1A—2BII—3AB).
6. Berggren, H. : The mineral metabolism in the dental hard tissues, Acta radiol. 27: 248, 1946. (1A—2BI—3B).
7. Bevelander, G., Amler, M. H. : Radioactive phosphate absorption by dentin and enamel J. D. Res. 24: 45, 1945. (1A—2BI—3B).
8. Blayney, J. R., Wassermann, F., Groetzenger, G., De Witt, T. G. : Further Studies in mineral metabolism of human teeth by the use of radioactive phosphorus, J. D. Res. 20: 559, 1941. (1A—2BI—3B).
9. Bodecker, C. F., Lefkowitz, W. : Concerning the „vitality” of the calcified dental tissues, I, J. D. Res. 16: 463, 1937. (1B—2BII—3B).
10. Bodecker, C. F. : Concerning the „vitality” of the decalcified dental tissues. IV, J. D. Res. 20: 377, 1941.
11. Bodecker, C. F. : Tooth condition, a factor in experimental isotope absorption, J. D. Res. 22: 281, 1943.
12. Bodecker, C. F., Lefkowitz, W. : Further observations on vital staining of dentin and enamel, J. D. Res. 25: 387, 1946. (1B—2BII—3B).
13. Bouysson, M., Cresson, J. : Recherches sur la diffusion intradentaire des colorants et ses relations possibles avec la carie, Rev. de Stomatol. 48: 381, 1947. (1A—2BII—3A).
14. Erbacher, O., Wannemacher, E. : Zur Frage von Stoffwechselforgängen in den Zahnhartgeweben, Dtsch. Z.M.K. 8: 201, 1941. (Erbacher: 1A—2BI—3B; Wannemacher: 1B—2BII—3B).
15. Fish, E. W. : Circulation of lymph in dentin and enamel, J. Am. D. Ass. 14: 804, 1927. (1B—2BII—3B).
16. Fish, E. W. : The vitality of enamel, Brit. D. J. 53: 563, 1932. (1B—2BII—3AB).
17. Gersh, I. : The Altmann technique for fixation by drying while freezing, Anat. Rec. 53: 309, 1932.
18. Gilda, J. E., McCauley, H. B., Johansson, E. G. : Effect of pulp extirpation on the metabolism of phosphorus in the teeth of a dog as indicated by radioactive phosphorus, J. D. Res. 22: 200, 1943 (I.A.D.R. 21st Gen. Meet.). (1A—2BI—3B).
19. Gustafson, G. : Vital Förgning och emalstruktur, Odont. Tidskr. 55: 581, 1947 (referaat: Excerpta Medica 3: N° 385, 1949).
20. Gustafson, G. : The structure of human dental enamel, Odont. Tidskr. 53: Suppl. Lund (Zweden) 1945, p. 150.
21. Hartingsvelt, H. v. : Weerstandsbepalingen van en ionendiffusie in tanden en glazuur, T. v. Tandh. 55: 554, 1948. (1A—2A—3A).

22. Herzig, H. : Experimentelle Untersuchungen über die Permeabilität des Zahnes, Thesis, Würzburg, 1936, p. 19. (1A—2ABII—3A).
23. Hevesy, G., Armstrong, W. C. : Exchange of radiophosphate in dental enamel, J. Biol. chem. 133: XLIV, 1940. (1A—2BI—3B).
24. Hinds, E. C. : Resistance of enamel to dental caries, J. D. Res. 21: 475, 1942. (1B—2BII—3B).
25. Kanner, O. : Physicochemical studies of enamel I. Dye penetration into enamel of adult human teeth in situ, J. Am. D. Ass. 25 : 223, 1938. (1A—2BII—3B).
26. Koss, W. F., Ginn, J. T. : Distribution of sodium in the teeth and bones of dogs, as shown by the radioactive isotope, J. D. Res. 20: 465, 1941. (1A—2BI—3B).
27. Lefkowitz, W., Bodecker, C. F. : Concerning vitality of calcified dental tissues II. Permeability of enamel, J. D. Res. 17: 309 en 453, 1938. (1B—2BII—3B).
28. Lehner, J., Plenk, H. : Die Zähne, in von Möllendorffs Handbuch der microscopischen Anatomie des Menschen. Vol. 5, part 3, Berlin; 1936, Julius Springer, p. 449.
29. Mandel, I. D., Sarkady, L. S. : Introduction of sodium iodide into the calcified dental tissues, J. D. Res. 25: 95, 1946. (1A—2A—3B).
30. McCauley, H. B., Gilda, J. E. : In vivo distribution of radiophosphorus ( $P^{32}$ ) in vital and pulpless teeth of a dog as indicated by radioautographs, J. D. Res. 22: 200, 1943 (I.A.D.R. 21st Gen. Meet.). (1A—2BI—3B).
31. Norvold, R. W. : External acquisition of fluorine by enamel, J. D. Res. 20: 232, 1941 (I.A.D.R. 19th Gen. Meet.). (1A—2A—3A).
32. Pedersen, P. O., Schmidt-Nielsen, B. : Exchange of phosphorus in human teeth. Further experimental investigations, using radioactive phosphorus as indicator, Acta Odont. Scand. 4: 1, 1942. (1A—2BI—3B).
33. Puckett, W. O. : The methacrylate plastics as mounting media for biological materials, Anat. Rec. 80: 453, 1941.
34. Scheff, J. : Argyria dentium, Österr.-ungar. Vjschr. Zahnh. 11: 1, 1895.
35. Smreker, E. : Injection des Schmelzes durch die Zahnbeinkanälchen. Ztschr. Stomatol. 24: 460, 1926. (1B—2BII—3A).
36. Smreker, E. : Histologische Untersuchungen über den Bau des Schmelzes der Hundezähne, Ztschr. Stomatol. 28: 1030, 1930.
37. Staz, J. : Bands of Schreger, J. D. Res. 25: 373, 1946.
38. Urbantschitsch, E. : Ursachen und Bahnen der endogenen Zahnverfärbungen, Ztschr. Stomatol. 24: 1050, 1926.
39. Urbantschitsch, E. : Ursachen und Bahnen der endogenen Zahnverfärbungen, Ztschr. Stomatol. 25: 19, 789 en 1054, 1927. (1B—2BII—3AB).
40. Volker, J. F., Hodge, H. C., Wilson, H. J., Van Voorhis, S. N. : The adsorption of fluorides by enamel, dentin, bone and hydroxylapatite as shown by the radioactive isotope. J. Biol. Chem. 134: 543, 1940. (1A—2BI—3A).
41. Volker, J. F., Sognnaes, R. F. : The distribution of radioactive phosphorus in the teeth of experimental animals, J. D. Res. 20 : 471, 1941. (1A—2BI—3B).
42. Volker, J. F., Ginn, J. T. : Radiophosphorus ( $P^{32}$ ) metabolism of deciduous and erupted and unerupted permanent teeth, J. D. Res. 21 : 339, 1942 (I.A.D.R. 20th Gen. Meet.). (1A—2BI—3B).

43. Volker, J. F. : Effect of species and age of the radiophosphorus ( $P^{32}$ ) metabolism of the dental tissue, J. D. Res. 21: 339, 1942 (I.A.D.R. 20th Gen. Meet.). (1A—2BI—3B).
44. Wannemacher, E. : Diffusionsvorgänge in den harten Zahnsubstanzen, insbesondere im Zahnschmelz, Dtsch. Z.M.K. 5: 47, 1938. (1B—2BII—3AB).
45. Wassermann, F., Blayney, J. R., Groetzinger, G., De Witt, T. G. : Studies on the different pathways of exchange of minerals in teeth with the aid of radioactive phosphorus, J. D. Res. 20: 389, 1941. (1A—2BI—3B).
